

LV STREAM

AI-DRIVEN | HIGH-SPEED | SEAMLESS VENUE SECURITY

KEY FEATURES

Ultra-High Throughput – Efficiently screens 1300+ bags per hour, ensuring smooth visitor entry at high-traffic venues

AI-Powered Threat Detection – Instantly identifies weapons, explosives, and prohibited items with precision

Seamless Hands-Free Operation – Automated scanning starts instantly, eliminating manual input

Dual-View Imaging – Captures detailed, multi-angle scans for enhanced AI analysis

Fully Automated Threat Recognition – No need for operator image interpretation, reducing human error

The LV Stream security system delivers AI-driven, fully automated threat detection for stadiums, arenas, and event venues. Eliminating the need for constant manual monitoring, it allows security teams to focus on real threats, ensuring faster and more efficient screening.

With a throughput of 1300+ bags per hour at 0.7m/s, LV Stream keeps entry points clear and queues moving, preventing delays. Advanced AI algorithms instantly detect weapons, explosives, and prohibited items, reducing false alarms and unnecessary manual checks.

Designed for effortless operation, LV Stream requires no specialist training. Real-time alerts allow security personnel to respond instantly, improving threat management without disrupting guest flow. Seamlessly integrating into existing security frameworks, LV Stream enhances safety while maintaining a smooth, welcoming experience for all visitors.

LV STREAM

EXPERIENCE THE FUTURE OF VENUE SECURITY

- **Unmatched Speed and Efficiency** – Process 1300+ bags per hour at 0.7 meters per second, ensuring fast, uninterrupted security screening for high-traffic venues
- **AI-Powered Precision** – Advanced AI-driven detection automatically identifies weapons, explosives, and prohibited items, minimising manual intervention.
- **Effortless Deployment & Mobility** – Compact, plug-and-play design allows for rapid setup and relocation, ideal for dynamic event security.
- **Comprehensive Threat Detection** – Detects firearms, knives, explosive materials, and concealed large objects, enhancing venue safety.
- **Optimised Event Flow** – High-speed, automated screening reduces queues, ensuring a smooth and hassle-free entry experience.
- **Future-Ready Security** – Stay ahead with next-gen AI technology, delivering reliable, scalable protection for evolving security needs.

Enhance your existing security infrastructure with AI-driven technology. LV Stream seamlessly upgrades older models like BV 5030 and BV 6045, delivering faster, automated inspections with advanced threat detection. Ensure smarter, more efficient screening while maintaining a safe and seamless experience for guests and staff.

GENERAL SPECIFICATIONS

DIMENSIONS	
TUNNEL DIMENSIONS	
width	520 mm [20.0 in]
height	310 mm [12.2 in]
OVERALL DIMENSIONS (MAX)	
width	740 mm [29.1 in]
height	1360 mm [53.5 in]
length	3350 mm [131.8 in]
Ultra-high throughput - 1300+ bags per hour	
AI-powered detection
